InviteME

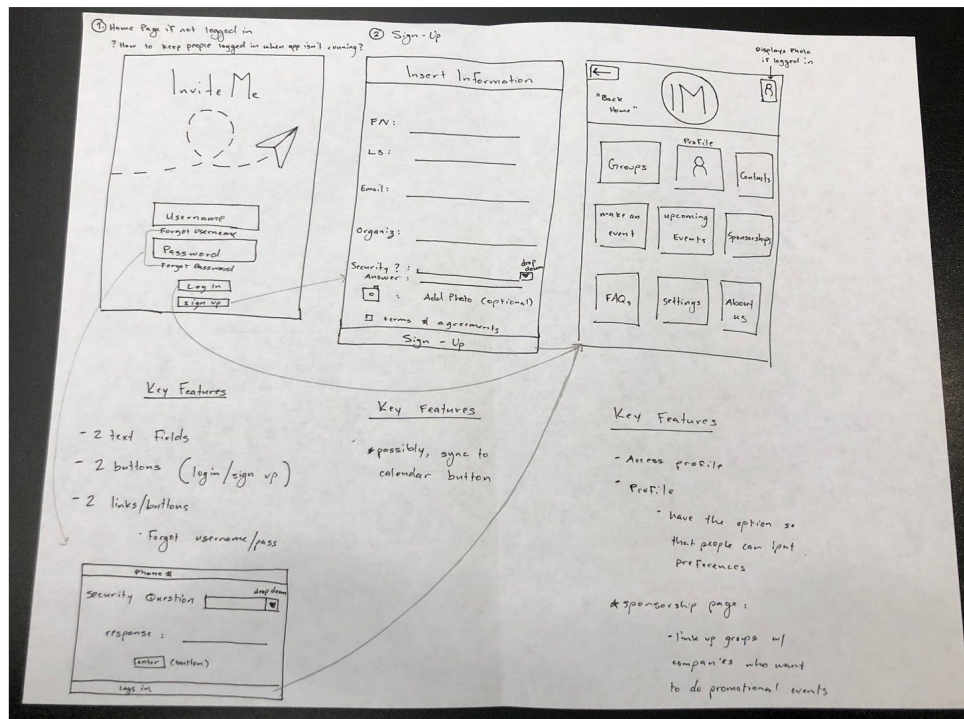

Below details the User Interface for the InviteME app. The images describe the layout and functionality of different pages/screens within the app. Overall, the app will contain 16 initial activities. These are subject to change throughout the development process. The pages use a variety of buttons, text boxes, write-in text boxes, links, and other application tools. The general approach to the app is to learn how to use user create content, connect users with other users, create a centralized database of “sponsorships” which will be displayed on every users application, settings to allow users to customize their app, and FAQs/About us to allow for clarification on the app.

Initial 16 pages:

1. Welcome
2. Signup
3. Home
4. Forgot Credentials
5. Make an Event
6. Upcoming Events/Calendar
7. Add an Event
8. About Us
9. Groups
10. Create a Group
11. Profile
12. Contacts
13. Sponsors
14. FAQs
15. Settings
16. Change Settings
